APPLICATION FOR RESIDENTIAL METERED WATER SERVICE

NAME OF PROPERTY OWNER _____

PROPERTY ADDRESS _____

TAX MAP # _____

OWNER MAILING ADDRESS: _____

PHONE NUMBER _____

E-MAIL ADDRESS _____

OWNER OCCUPIED _____ RENTAL PROPERTY _____

REQUESTED SERVICE SIZE: _____

Residential customers with intentions of installing an irrigation system must apply for a sprinkler permit and arrange for an inspection prior to its use.

The undersigned, being the owner of the property listed above, hereby requests that the Clifton Park Water Authority supply water to the premises at that location and agrees to pay the published rates and comply with all rules and regulations of the Authority including, but not limited to, restrictions on cross-connections between the CPWA system and any private sources of water.

The undersigned further agrees to give prompt notice to discontinue service prior to vacating the service address. The undersigned will be liable for all water use to the property until notice to discontinue service is given and a final meter reading is obtained.

NEW RESIDENTIAL WATER SERVICE INSTRUCTIONS

1. Complete an Application for Residential Metered Water Service.
2. Provide a plot plan or map of the property.
3. CPWA will determine if the property is within the Water Authority territory.
4. Payment of the required fees in accordance with the Authority's fee schedule prior to installation of a water curb stop.
5. Set a stake/marker provided by the Authority at the desired location along your property line within the public right-of-way where you want the water curb stop located.
6. Make the necessary arrangements for the installation of the water line from the Authority curb stop at your property line to the house. This is not the responsibility of the Water Authority.
7. The installer of the water service line must call the Authority to arrange for an inspection of the connection to the curb stop prior to backfill.
8. Call the Water Authority to schedule an appointment for a water meter installation immediately following completion of the plumbing inside the house.

Standard Specifications and plumbing photos/diagrams are available on our website.
