Summer Watering Restrictions

In the interest of balancing water system demand, maintaining proper system pressure, and conserving precious water resources, it is necessary to **limit lawn watering to odd/even days based on your house number.**

You may water at any time of the day that you find convenient. This policy will be in effect from May 1st through September 30th, as it is every year. Please be aware of the inclining block rate structure used for billing by the Authority. Chart your water usage to avoid any surprise when bills arrive.
